

EXPERTS REPORT CROP PROSPECTS

Conditions are Good in North Part in the Opinion of All—Contrasts to be Seen Along the Line of the Grand Trunk Pacific—Cutting Seems to be General

made the following reports on crop conditions in the districts in the vicinity of Edmonton:

Calgary to Edmonton.

On the Calgary-Edmonton C.P.R. line, I have made reports on crop conditions at Olds, Innisfail, Red Deer, Lacrosse, with Rielton on the west end of the line, and including Dryden, 87 miles east, on the Wetaskiwin-Saskatoon line. From Olds to Wetaskiwin conditions vary little. The various districts extend

At present fall wheat is being sown on summer fallow and new land for next year's crop. The weather has occurred lately, I believe, at Edmonton and at Dryden, and some damage has been done, but not enough to cause any alarm. The harvest is now well under way and will be about completed by September; some wheat is being threshed, but grain is not abundant, will be secured from outlying homesteads, not more than three hundred outsiders being required. Heavy showers have fallen over

In these immense districts the country is still new and but a small

fraction is under cultivation. Mixed farming, stock raising and dairying, rather than wheat growing, draw the attention of the farmers. Each year sees the acreage increased, and fall

Oats is the staple crop, as it best suits the dairying demand and the climatic conditions. The wheat and oats on timothy and for the most part are not good crops, although where the sod has been well worked I have seen good crops of the best. The early spring this year has been very dry, and in some fields of winter wheat in every district, but the farmers sowed oats and will realize fair returns.

In such large districts and with prevailing rains and poor roads, I could not in my limited time inspect anything like the total tributary area, and the crops I did see, being nearer towns, where the land has been longer under cultivation, were not as good as those in the more remote distance. Around Colusa the growth was very destructive, but northward conditions improve, and thirty miles

very fair. In this forty miles and at Daysland and Stettler, spring wheat is considerably grown, but at other points fall wheat is almost entirely

prospective yield of fall wheat varies little from Olds to Wetaskiwin. Good farmers have good crops

Some fields of this wheat should return forty-five bushels to the acre and throughout the line all the winter wheat I saw was good, and, I think, should average for the line close to increased average of twenty-five per cent. the total yield will not be much less than last year.

Daysland District.

The Wetaskiwin-Saskatoon line for

shipment from each point will be 109,000 bushels. Spring wheat, where grown, shows signs of the drought, and the average will fall below eighteen bushels. To the south, the spring wheat is poor.

Dale Mostly Green.
At each point, the big fraction of the average, but not the whole, is green. The big fraction of the average is green, but not the whole.

Land well prepared bears good crops and poorly worked lands very light ones. O. G. Mosier, on well worked new land, has Huren wheat that is good for thirty-two bushels and corn for thirty-two bushels and will only yield fourteen bushels. Most of the stubble fields are affected by drought, and will scarcely yield ten bushels. The

the more common place. I think the best place is around Lacombe. While the big production of the acreage is not a first-class crop, many fields will yield as high as fifteen bushels, yet with the present cool and moist conditions, the crop on this line should average between thirty and forty bushels. Of

Barley is grown for hog fodder and for home requirements only. Some crops are good, some not. At Jumball, where the best barley fields were

the poorest are made aware that with barely pay for cutting, while the aver-

the hay crop. At 3 points timothy is grown in large acreage, but it is only a medium crop except, possibly, at Olds, where conditions seem more favorable. In view of high prices for

old crop has been made wherever possible, and at each point several hundred cars will be available for shipment. It is likely, however, that the southern stock will be shipped north, rather than the entire southern crop, as is the case with all other commodities. It is difficult to make the distinction between good and poor farming in the present, more by the pro-

the Wetaskiwin-Saskatoon line. From outlying homesteads, not more than thirty to forty miles from the line, the old to Wetaskiwin conditions vary little. The various districts extend west of the railway to the Rockies and business is done with farmers fifty to one hundred miles west. On the

east, however, the distances are not so great. In these immense districts the country is still new and but a small fraction is under cultivation. Mixed farming, stock raising and timbering are the principal occupations. The cause of a falling off of returns this year is of one-third, but the increased acreage and the extensiveness of mixed farming interests will overbalance that in results, and this year will make

rather than wheat growing, draw the attention of the farmers. Each year sees the acreage increased, and fall wheat is being grown with success. Oats is the staple crop, as it best suits the climate, and is the most profitable.

conditions. The wheat and oats on timothy sod for the most part are not good crops, although where the sod has been well worked I have seen some of the best. The early spring

some fields of winter wheat in every district, but the farmers sowed oats and will realize fair returns.

Good Crops North of Calgary.

In such large districts and with

could not in my limited time inspect anything like the total tributary area, and the crops I did see, being nearer towns, where the land has been longer under cultivation, were not as little flax. Generally speaking the crops are pretty fair. They have suffered from the drought, and the land is very little cultivated in many places. I saw both good and poor fields of wheat and oats, but the for-

distance. Around Calgary the drouth was very destructive, but northward conditions improve, and thirty miles out, around Crossfield, some crops appear good. Around Carstairs, ten fields not worth cutting, while on the other hand I saw some fields of wheat that would average twenty-eight to thirty-five bushels and oats forty-five to eighty. It would be difficult to correctly estimate the total average

very fair. In this forty miles and at Daysland and Stettler, spring wheat is considerably grown, but at other points fall wheat is almost entirely the only wheat attempted. The average from fifteen to twenty bushels to the acre, oats from thirty-four to forty, and barley about twenty-eight. The hay crop, although light, is plentiful, and both districts will find it profitable to cut all available hay lands.

Good farmers have good crops on summer fallows and new lands. Some fields of this wheat should return forty-five bushels to the acre and

wheat I saw was good, and, I think, should average for the line close to thirty bushels. Possibly the average shipment from each point will be 100,000 bushels. Spring wheat, where

the average will fall below eighteen bushels. To the south the spring wheat is poor.

Oats Mostly Grown.

At each point, the big fraction of

not describe the oat crop as a banner one, after inspection of thousands of acres I disagree with that report, which recently said that not a good crop was found in this line. Condition in crop conditions is wide. Land well prepared bears good crops and poorly worked lands very light ones. O. G. Monier, on well worked new land, has Huron wheat that is good for thirty-two bushels per acre.

the last ten days. At almost every point I visited I saw fields which will yield from sixty to ninety or more bushels per acre. I think the best oat crops are around Le-

While the proportion of the acreage is not a first-class crop, and many fields will yield as low as fifteen bushels, yet with the present cool and moist conditions, the oat crop on this line should average between twenty and thirty bushels.

Barley is grown for hog fodder and for home requirements only. Some crops are good, some not. At present this crop fully one-half will be required for home consumption.

where the best quality grain is seen, much was in evidence. Practically no flax was seen, but the root crop is splendid.

Large Surplus of Hay.

In view of the great drouth in

inspection and inquiries concerning the hay crop. At all points timothy is grown in large acreage, but it is only a medium crop except, possibly, at Oida, where conditions seem more

favorable, in view of high prices for hay, and low prices for stock, the wild crop has been saved wherever possible, and at each point several hundred cars will be available for shipment. It is likely, however, that

The southern stock will be shipped north, rather than the entire surplus hay crop sent south. At all points the distinction between good and poor farming is apparent, more by the pro-

AROUND THE CITY

LOCAL

R. H. Irvine, who by C.P.R. last evening for Calgary, where he will take up the position of resident engineer of the C.P.R. railway.

It is now definitely ascertained that the "grainstack" at the exhibition grounds, the construction of which was requested by the committee, will be completed by the date for the opening of the exhibition.

AUTOMOBILEST FISHED.
At the police court yesterday afternoon Sinclair Watt was fined fifteen dollars and costs for driving an automobile at a furious rate of speed down Fourth street, Thursday afternoon.

TEMPERANCE MEETING.
On Sunday afternoon at four o'clock at the Orpheum Theatre the ladies connected with the W.C.T.U. will take the entire program and an address on the subject "Who is Responsible?" will be given by Mrs. W. E. Noble.

The McLaughlin orchestra will give selections. Mrs. J. J. Durbeck will sing. Young men specially invited to come and spend a pleasant hour.

TO HAVE TEXT AT FAIR.
On Sunday afternoon at four o'clock at the Orpheum Theatre the ladies connected with the W.C.T.U. will take the entire program and an address on the subject "Who is Responsible?" will be given by Mrs. W. E. Noble.

The McLaughlin orchestra will give selections. Mrs. J. J. Durbeck will sing. Young men specially invited to come and spend a pleasant hour.

JOHN GUNN VISITS CITY.
John Gunn, the head of the firm of John Gunn & Co. of Winnipeg, who have the contract for the construction of the high level bridge, arrived in the city yesterday and is at the Hotel Alberta Hotel.

When questioned by the Bulletin concerning his plans for the conduct of the work Mr. Gunn, like other Builders, "kept to saying nothing."

An admission that the plan for the work was being prepared from St. Paul, Minn., was elicited by the reporter with some difficulty, together with a promise of further information.

had had an opportunity of looking over the ground.

Mr. Gunn, though reticent in the extreme, as to his plans for work on the bridge, was a little more communicative when asked to give his impressions of the conditions in the neighborhood of Winnipeg, and stated that the reports of failure have been very much exaggerated. Mr. Gunn is the owner of a farm situated about forty miles from Winnipeg, and stated that he left yesterday from a haphazard area in which he would get from seven to ten bushels of wheat to the acre.

CITY TAKES OVER THE JOB.
The commissioners decided to break off negotiations with F. J. Dunlop, contractor for the work on the power house, and to proceed with the reconstruction of the building, charging the expense to the contractor. The proposition will be taken of obtaining photographs of the power house under existing conditions, and other measures will be adopted to secure a permanent record of the present state of the structure for use in case legal action should be necessary.

An expenditure of any amount up to \$175 was authorized by the city council to employ the services of Robert F. Jones, the young lineman who met his death by electrocution on Thursday last while engaged working on the wires on First street.

Instructions were issued to the medical health officer to comply with the request of the health inspector of the city of Guelph, by which he asked to be supplied with a copy of the city health laws.

In view of the complaints made in certain quarters of the present method to prevent accidents on the railway, a report submitted by the railway department is not without interest. A few days ago a man lying on the track in the course of the moving car in the neighborhood of the city park. The powerful headlight coming on the car revealed the presence of the man on the track to the motorman, who was able quite easily to bring his car to a standstill. The man, who was apparently a man, who was helplessly drunk, to a position of safety.

The city engineer submitted a report on the condition of the aquatic tanks, made at the request of the medical health officer, who had received complaints that they emitted an offensive odor. The report stated that no offensive odor had been noted, except possibly on a few occasions, and that the very best sanitary conditions had been maintained, and that measures had been adopted to prevent a recurrence of the objectionable condition.

A request for the privilege of using the main tank of the river in the city of Edmonton, and the Laurier Park, was received, and will be dealt with after the commission have made a personal inspection of the property.

DOMINION FISHERIES COMMISSION.
The Fisheries Commission appointed by the Dominion Government to investigate the fisheries of the provinces of Alberta and Saskatchewan, will set for the purpose of taking evidence as follows:

City Hall, Regina, Wednesday, Sept. 14, 10 a.m.
City Hall, Regina, Thursday, Sept. 15, 10 a.m.
City Hall, Saskatoon, Saturday, Sept. 17, 10 a.m.
City Hall, Saskatoon, Monday, Sept. 19, 10 a.m.
City Hall, Winnipeg, Monday, Sept. 19, 10 a.m.
City Hall, Winnipeg, Tuesday, Sept. 20, 10 a.m.
City Hall, Winnipeg, Wednesday, Sept. 21, 10 a.m.
City Hall, Winnipeg, Thursday, Sept. 22, 10 a.m.
City Hall, Winnipeg, Friday, Sept. 23, 10 a.m.
City Hall, Winnipeg, Saturday, Sept. 24, 10 a.m.

Instructions were issued to the medical health officer to comply with the request of the health inspector of the city of Guelph, by which he asked to be supplied with a copy of the city health laws.

In view of the complaints made in certain quarters of the present method to prevent accidents on the railway, a report submitted by the railway department is not without interest. SPORTING NEWS

FOOTBALL

PLAYED DRAW GAME.
The St. Georges and Sons of England team met last night on Second street grounds in the first round of the United Aids Shield, before about 200 spectators. The match resulted in a draw. The line-up was as follows:

ST. GEORGES.
Goal, Lovelock.
Backs, Chapman, Half-backs, Chapman, Huff, Forwards, Francis, Parker, Lacey, O'Neil, Tompkins.
Dykes, Moore, Emblin, Walker, Muckler, Edwards, Dykes, Bell, Half-backs, Jennings, Whitehead, Backs, Jessop, Goal.

SONS OF ENGLAND.

Emblin set the ball in motion for S.O.E. against a bright run, and got right down on Parker, sending in a high, dropping shot. Parker saved, sending the ball well down the field. The St. Georges were handicapped, only playing ten players, and the S.O.E. defence had only four forwards to check, making their task considerably easier. Dykes got off on the left, passing to Moore, who forced Chapman to concede a corner. Dykes took the kick just placed behind. From the kick-off Lloyd made off in good style, passing Bell and placing well to Tompkins, who kicked behind. The St. Georges were now hav-

ing slightly more of the game and kept the S.O.E. defence busy. Lloyd again made a run, but Whitehead cleared. Dykes accepting the ball, fouled close in. Jennings placed the ball right in the goal, but Parker saved well, sending the ball well down the field.

Francis started a run on the right but was unable to pass Jennings, who placed to Emblin. Lovelock cleared. Lloyd and Tompkins were playing well together and Whitehead was having a hard time keeping them in check. From one of their rushes he gave a corner. Tompkins took the kick, but placed behind.

Emblin got the ball from the kick-off and made off in good style, when he was fouled by Huff. Bell took the kick but Parker cleared. The S.O.E. were now playing better together but Lovelock cleared a dangerous pass from Moore.

Lloyd and Tompkins went off on the left, beating Jennings. Tompkins sent in a fine shot, but Jessop again saved. From the kick Walker passed to Muckler, but this player was unable to keep possession, losing to Lovelock.

A spell of midfield play followed, neither team gaining any advantage. The St. Georges tried hard to penetrate the S.O.E. defence, but could make no headway, the want of a centre helping greatly on their movements.

A foul of O'Neil led the S.O.E. forwards close in, but the ball was sent pass. From the kick-off Parker had a good run, passing Bell, who seemed in poor form. Parker made a good try for goal, but the ball went over the bar. Immediately after this the whistle sounded for half time. Score: St. Georges 0, S.O.E. 0.

The second half started with the St. Georges having their full team. Lacey filling the vacancy. The St. Georges went right into the S.O.E. goal, but Jessop again saved. The

Scots returned to the attack and Tompkins kicked behind.

From the kick-off Walker got away on the right, passing to Emblin, who forced a corner. Walker took the kick but placed behind.

The S.O.E. were now keeping the Dragons' defence busy, Chapman having to kick out. From the throw-in Emblin was making straight for goal when he was deliberately tripped by Chapman. The referee giving a penalty. Jennings took the kick, sending in a swift low shot, but Parker got down on the ball in great style, effecting a brilliant save.

The Scots made straight for Jessop. Tompkins sending in a good shot, but Jessop was not to be beaten, saving in fine style. Huff seized the ball, passing to Parker, who made a good run, passing to Lloyd, who beat Whitehead on the run, and sending in a fast shot completely beat Jessop, and scored the first goal of the match.

From the kick-off the S.O.E. forwards forced the ball right in on Parker, who saved, but the S.O.E. were not to be deterred and were sent back on Parker, who again cleared. Bell got the ball, sending it out to Walker, who was fouled within the penalty area, the referee again giving a penalty kick.

Emblin took the kick, and making no mistake sent the ball into the net, equalizing the score.

From the kick-off and right on until the whistle sounded neither team could make any further score. Extra time was played, but the game ended: St. Georges 1, S. O. E. 1.

ANOTHER GAME TONIGHT.

The replay of the match between "Colts" and North Edmonton will be played on the Second street grounds at seven o'clock tonight.

LACROSSE

ALL-STAR TEAM AFTER CUP.
OWAS, Aug. 19.—It is likely that a team composed of all stars of the National Lacrosse Union will go to New Westminster tomorrow for one of exhibition games during the British Columbia fair. George Bryson, of Owasa, a close friend of Charlie Welsh, of the Westminster Club, has been asked to take a team out. It is not likely that the champions will go this fall, and local managers will be asked to enter a very strong twelve, including several of the Capitals, Tecumehs, Torontos and Shamrocks. It is said Graydon and Merton, of the Tecumehs, will be asked to take in the trip, as well as Powers, Fitzgerald and Hawkshaw, of Torontos; Dillon and Molt, of the Shamrocks, and Don Cameron, of Cornwall.

RUNNING

SHRUBB LOCATES IN WINNIPEG.
Winnipeg, Aug. 19.—Felix in Winnipeg has received word from Alfred Shrub, that the little English runner

will shortly move from Toronto and take up his residence in this city. When the running game was at its height and Shrub made lots of money he went into the trunk business at the Queen City. He was unfortunate, for when everything was going well he lost everything to fire. Since then Alfred has merely been putting in his time and now he says he will move west and go into business here. Meanwhile it may be said that he and Longshot may hitch up for a race on Labor Day and that the Indian will afterwards make a tour of England, Ireland and Scotland, starting in a few weeks time.

SHRUBB'S LAST CHANCE.

Alfred Shrub, the speedy middle-distance champion, will try to prove to the athletic world that he can come back at the Boston, Scotch games, September 6. The Brit-A champion will start in the semi-mile open race, in which Hans Holmer, Jim Crowley, Ted Crooke and other well-known professionals will run. It will be Shrub's first race since his breakdown against Tom Longshot of Toronto.

THE RING

ITALIAN WON CONTEST.

Winnipeg, Aug. 19.—John Cassella promoted an excellent boxing program in the Auditorium last night. A good preliminary being provided in Ring and Corner of courage, who divided honors. Tony Caponi and Jack Ryan, of the Windy City, both weighed in at 136 and opened cautiously feeling each other out. Ryan occasionally using good up-purports, but Ryan showing more experience. Ryan, gaining confidence, but freely with his right in the fourth round, Caponi negotiating with about him. In the fifth and sixth they fought freely, breaking circles, but Tony, toward the end, pushed Ryan and headed repeatedly finally knocking Ryan down with a right uppercut, the bell saved Ryan. Ryan came back strong in the seventh and eighth, knocking Caponi down with a right entry to the jaw. The ninth was a good round, but Ryan showed fatigue and in the tenth Ryan again showed defense and the police stopped a fight with only forty-four seconds to go. No decisions are permitted in Winnipeg, but the fight was a good one in which Tony's superior ring generalship over him a decided advantage.

ROUGH ON LAXFORD.

New York, Aug. 19.—The World gets it about very hot following a fight last night (Sat.) before Sam Langford to be the best and the luckiest odds-making fair in the first game took. I have repeatedly drawn attention to the way that Langford has been "roughed" by "beats." He hasn't whipped a boxer of real class in years, but through the vigil and persistence, advice of "dope" that his press agent and manager, Joe Woodman, has been sending broadcast to the press, one is tempted to believe that the negro is a great fighter. He was in a way. He was seen around town's like Jimmy Barry, Josh Hart, Mike the Maul and Skip Telephon, the prize barber of Smokey Hollow.

but when he got up against something like a real game fighter Langford just "wore." Which is why he ran out on Kvalman in the match planned for Philadelphia.

SNAP FOR SALE

24 acres, 5 acres slashed and fenced, 8 acres in oak, overlooking stream of water, barn, stable, 400 feet on main road, Canadian Northern depot 1-2 mile away, home, wagon, cows and chickens, cow. The Best Place to Buy a Piano

WHEN QUALITY IS THE CHIEF CONSIDERATION

The careful purchaser of a piano buys only for today. The intelligent purchaser has the future in view.

At the Mason & Risch factory, the quality thought is paramount. No matter what price you pay for a piano, you are entitled to the maximum degree of quality.

The tone, the grade of materials, the character of workmanship are matters that cannot be judged accurately. Yet they have the most important relation to the future satisfaction of the purchaser. It is a case where the seller must be trusted to know that every factor is right.

The piano business at the Mason & Risch factory is founded upon the broad principle that no large success can be expected unless confidence is observed and absolute satisfaction follows each individual sale.

MODERATE MONTHLY PAYMENTS IF DESIRED.

TAXATION CASE UP IN NOVEMBER

Sidney B. Woods Returns From London Where He Went To Argue C.P.R. Taxation Case

R. B. Woods, former deputy Attorney-General of Alberta, returned to the city yesterday from London, England, where he went in connection with the taxation case relative to the province of Alberta.

The taxation case of the Province of Alberta, vs. the C.P.R., which has passed the successive stages from the courts of Alberta to the Privy Council of England, involves a sum in excess of \$1,000,000.

The taxation case of the Province of Alberta, vs. the C.P.R., which has passed the successive stages from the courts of Alberta to the Privy Council of England, involves a sum in excess of \$1,000,000. A minor action which has also been carried to the higher tribunals in the Empire has at stake a sum of about three million dollars. Both the cases centre round the claim of the province of Alberta that C.P.R. lands granted under the Dominion Lands Act are exempt from taxation by the Parliament of Canada in 1911, are now taxable, the province contending that the 20 year exemption from taxation, given under clause 14 of the contract of 1881 between the province and the land and not from the date of the securing of patent to the lands by the railway company.

The late Deputy Attorney-General, S. B. Woods, has been engaged in the preparation of the case for more than two years. The interests of the C.P.R. have been looked after by A. C. Creelman, K.C., Montreal, and Stewart P. H. C. Wintling.

The statement of claim. The minister of public works in the province of Alberta, is the plaintiff and the C.P.R. Co. the defendant in the case.

The minister of public works is entitled under the provisions of the local improvement act to sue for and recover as a debt any taxes or arrears of taxes due in respect of any land in a large local improvement district of the province.

The plaintiff claimed in the first case that unless exempt from taxation under clause 14 of the contract of 1881 between the province and the Dominion and the C.P.R., the land would have been subject to taxes under the local improvement act.

The defendant claimed that the land was exempt from taxation under clause 14 of the contract of 1881 between the province and the Dominion and the C.P.R., the land would have been subject to taxes under the local improvement act.

The survey and subdivision of Township 19, Range 7, west of the 4th principal meridian, into townships, sections and quarter sections, were approved and confirmed by the Governor-General of Canada on June 13th, 1881, and the lands in question became known and identified as being sections bearing numbers 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, Dominion Government "did not consent and ensure into the company, their successors and assigns forever." They claimed that all patents to the defendant's lands were issued in this form and show that in 1881 none of the land in Alberta was subject to the claim of the schedule referred to in the following:

15. The Canadian Pacific Railway and all stations and station grounds, workshops, buildings, tracks and other property, rolling stock and appliances, required and used for the construction and working thereof, and the capital stock of the company, shall be forever exempt from taxation by the Dominion of any province hereafter to be established or by any municipal corporation therein, and the lands of the company in the Northwest Territories until they are either sold or conveyed, shall also be free from such taxation for twenty years after the grant thereof from the Crown.

The contention of the Crown is that the twenty year statute is to run, not from the date of the patent, but from the time when the survey was approved and sections identified as being old numbered. This was done in 1881, and the twenty years have in all cases elapsed in Alberta.

It was the contention of the C.P.R. that "grant" meant "patent" and that the twenty year statute was to run from the date of the patent. This contention was upheld by the Supreme Court of Canada in 1881, 1881, and the twenty years have in all cases elapsed in Alberta.

The second action, which came up before the Privy Council in 1881, was the case of the C.P.R. vs. the Province of Alberta. The Privy Council decided in favor of the C.P.R., and the case was remitted to the Supreme Court of Canada for judgment.

LLOYD GEORGE TAKES UP SALARY QUESTION

Chancellor of the Exchequer Initiates That Salary of Ministers and Parliament May Figure in the Next Budget—Mentioned in House of Commons

New York, Aug. 19.—In the House of Commons, the Chancellor of the Exchequer, Mr. Lloyd George, today initiated a discussion on the salary of Ministers and Parliament. He stated that the salary of Ministers and Parliament should be a subject for consideration in the next budget.

From the trades unionist movement the chief fact evolved is that owing to the prevention of subscriptions by unions by decision of the courts of law and the consequent stoppage of all pay for labor members of parliament the payment of all members of the House of Commons is brought into question.

Government Gains Precedence. Nothing succeeds like success, and since the close of the session the prestige of the government has risen.

Trade has seen a big boom. Exports are increasing significantly, and the government is receiving a large sum of money from the sale of the public lands.

The conference still hangs like a cloud over the House of Commons. The "Ancient Mariner" is still in the House of Commons, and the House of Commons is still in the House of Commons.

SAVED FROM THE KNIFE

Appendicitis Cured By "Fruit-a-lives"

NEWBURGH, ONT., Feb. 12th, 1910.

"Just about a year ago, our daughter Ella, (fourteen years), was taken with terrible pains in the right side. The pain was so severe that we had to carry her to bed. We at once put her under the care of a first-class doctor, who pronounced it a case of appendicitis and advised an operation."

We took her to a hospital in Kingston where she was again examined by an eminent specialist. He said she had appendicitis and must be operated on at once if we needed to save her life. As we had taken her to Kingston to have this done, we were ready, but our daughter was afraid and cried and begged us not to let her be operated on.

It was for that day. Luckily for us and for her, an uncle came in with some "Fruit-a-lives" and insisted on Ella taking them. Good results were apparent, almost from the first dose, and the continuous treatment cured her.

"Fruit-a-lives" saved our daughter from the surgeon's knife and to-day she is enjoying the best of health."

J. W. FOX, (Father)
LILLIAN FOX, (Mother)

Words cannot express the gratitude of Mr. and Mrs. Fox. And Miss Ella will always remember "Fruit-a-lives"—the discovery of an eminent physician, and the only medicine in the world made of fruit. See a box, 6 for \$2.50, or trial box, 25c. At dealers, or sent, postpaid, on receipt of price by Fruit-a-lives Limited, Ottawa.

BRITISH ARMY WAS NEVER MORE EFFICIENT

The Forces Are Now Ready for Any Emergency That May Arise—Many Changes Have Been Made in the Service During the Past Few Years

Despite much that has been said and written regarding the British army of today, the fact is that it has never in its history been better, more efficient, or more effective, says W. T. Gray, a London Daily Mail correspondent, stated by that paper to be well informed as to the aims and views of British military authorities. These he avows words, he continues, but they can be fully justified. That there should be any doubts on the subject is due to ignorance on the conditions which now exist, under Mr. Haldane's regime at the war office.

The army council, with Mr. Haldane as president, have re-created a real general staff and at the same time have taken adequate measures to keep

it in touch with the administrative staff.

The changes brought about since 1866 have met with bitter opposition from some sections of the service itself. This was particularly so with the militia. Regiment was strongly in favor of the old constitutional force, which had done much for the country. But a national policy was needed, and the interests of the army as a whole had to be considered, with the result that the special reserve which is a real reserve for the regular army, has replaced the militia.

Mobs of Armed Men.
The Mr. Haldane entered the war office both the militia and the volunteers were mobs of armed men, the former, especially in Ireland, showing an overwhelming mass of militia artillery of no possible use. Neither force had any war organization. They had no supply train, no field artillery. The territorial force, with its organization perfect in every detail, forms a striking contrast to the state of affairs prior to 1866.

The chief questions with which the military administration is rather the mistress of the Empire, generally,

are confronted have been concisely summarized as follows:

1. To provide adequate forces for the defence of the various self-governing portions of the Empire.

2. To furnish in peace sufficient garrisons for India, for Egypt, for coaling stations abroad, and for certain Crown colonies.

3. To place in the field immediately on the outbreak of war in the highest state of efficiency as large an expeditionary force as is possible compatible with the peace military expenditure.

4. To maintain both that force and existing garrisons abroad, throughout the continuance of hostilities, undiminished in numbers and efficiency.

5. To provide powers of expansion for service over-seas outside the limits of the expeditionary force.

Best Brains at Work.
Since then the best brains in the army have worked upon the task and with admirable results. First, the general staff had to reach the stage essential to its existence of "thinking alike on all matters of principle."

It was the general staff which devised the divisional organization in place of our former army corps which proved so unsuitable a formation in South Africa and may have been a divisional system in India has adopted the same formation as the basis of her military reconstruction. The general staff, after mature deliberation, recommended the division of three infantry brigades with a due proportion of other arms and services as the most suitable pattern towards which the military administration of the Empire should be asked to work in future.

Now we have six infantry divisions, with the cavalry division—a more perfect body of cavalry than we have ever had before—certain army troops, and troops and services for the lines of communication, all forming an expeditionary force of some 160,000 to 170,000 officers and men. But it is pointed out by a member of the general staff:

"The size of this expeditionary force is not decided by war is it intended that it is at all commensurate with the strategic needs of the Empire. Look where one will, contingencies exist which may in the near or distant future necessitate employment at short notice for the defence of imperial interests of a much larger force; and the hope may not be vain that other states of the Empire besides the mother country will some day hold a portion of their military forces as bodies organized for this special purpose, in constant readiness for operations overseas." To bring that about is part of the work of the imperial general staff.

Special Force Ready.
Meanwhile we have that splendidly trained expeditionary force ready to start at a moment's notice. For this special purpose, in constant readiness for operations overseas." To bring that about is part of the work of the imperial general staff.

Meanwhile we have that splendidly trained expeditionary force ready to start at a moment's notice. For this special purpose, in constant readiness for operations overseas." To bring that about is part of the work of the imperial general staff.

EMPLOYEES EXPECTED MOIR TO ESCAPE

Cited and Saw Were Used to Secure Release for Taggart and Himself—Generally Known That He Was Receiving Instruments to Free Himself.

Hamilton, Aug. 19.—An attendant at the asylum says that the screws which were taken from Moir's window, a saw, string and a chisel, were found in Taggart's bed. This discovery was not made until after two had made their escape. It was thought until the discovery was made that Taggart's friends were the people who gave outside assistance to the pair. It now seems indubitable that Moir was the brains of the affair and that after he was suspected and denied the privileges of receiving letters, he took Taggart into his confidence and worked with him.

Taggart, having been an exemplary patient, was allowed full privileges and was never suspected. The two, therefore, have been quietly plotting the thing out for weeks and the chisel and saw must have passed from one to the other almost daily without the attendants seeing what was going on. Other discoveries of a sensational nature have been made, so going to prove that the escape of Moir was anticipated, if not abetted by the employees of the institution.

It is stated that it was generally known round the asylum that Moir was receiving instruments with which to free himself.

Available after the usual deductions have been made for: Serving, 92,524; regular reserves, 116,000; special reserves, 55,545; a total of 264,069. There is, besides, the territorial army for home defence. Further, it is noted that under the new arrangement recent years reserve battalions whose main function it would be to train drafts for battalions in the field would automatically come into being on mobilization.

In addition twenty-seven extra reserve battalions are called upon for home defence to reinforce overseas battalions of the army in the field. The number available for service overseas has increased by some 110,000 officers and men. In fact, say the army council in a brief explanation presented in parliament last year, their measures have been directed to the organization "of the strongest expeditionary force that can be maintained in the field with our existing resources in men and money, consistently with the obligation to maintain the overseas garrison."

They also aim at maintaining that force throughout the continuance of hostilities undiminished in numbers and efficiency. They believe they can do this, but that does not end the tale of their achievements.

TWENTY-FOUR YEARS AGO.

Taken From the Files of the Edmonton Bulletin for Saturday, August 24th, 1886.

Smoky atmosphere. River falling lately. The Presbyterian Church property has been fenced.

Monday's stage brought a small monkey as a saloon attraction for Lloyd & Connors.

The shingle saw of the Sturgeon river mills burst while in action a few days ago. No one hurt.

A Mr. Campbell, of Winnipeg, and H. Gibson, of Hamilton, leave today for the latter place by rail.

The public school here did not open last Monday, but will open next Monday, 29th instant—barring accidents.

The Prince Albert volunteers have received notice that they are entitled to scrip.

The St. Albert mission building are being fitted with brick chimneys. The brick is from Humberton's yard, Edmonton.

D. H. Traer returned from up the river on Wednesday, having located his camp for lumbering next winter.

It is near J. Kelly's camp. Lumber is being hauled by the police to the Fort smelter to be used in the construction of additional barracks there this winter.

The greater part of the old bachelor's hall in the Fort has been torn down and removed across the river, where J. Walter will use it as a workshop.

Rev. John MacDougall, with Chiefs Pakan and Samson, were in Toronto on August 19th to attend the Methodist General Conference. They intend visiting Ottawa, to secure increased aid to their mission schools.

The Lieutenant Governor has refused the application of Medicine Hat, Maple Creek and their current for erection into a Northwest Council district, on the ground that he did not want it.

D. McLeod arrived from Calgary on Wednesday. He brings forty head of cows and heifers, Ontario stock, for the Indian Department here and at Victoria. He has already supplied the department at Morley and Peace Hills.

Messrs. Colin and Henry Fraser left for Beaver Lake on Thursday with their families and stock. They will put up hay and winter their cattle there, and, if they like the place, will take up claims and remain permanently.

Harvesting has been progressing briskly all week. The weather has been excellent, warm, calm and clear. The mill-binders, with which the district is well supplied, having over twenty are putting the grain into shape for stacking with a machine and despatch that a few years ago was impossible, and which, by lessening the length of the harvest, makes it possible to cut the grain just at the sugar time.

SOCIETY IN THE CAPITAL

(By Tontop.)

A delightfully lazy, lotus-eating spirit pervades the atmosphere just now, and there is very little of a social nature to be added to the "week." A number of the camera men returning to their homes, who a few days yielded to the witchery of Indian summer and are spending just a few days more "far from the madding crowd."

Mrs. Duncan Smith and Madame Thibodeau returned to the city on Monday after a delightful holiday at Gull Lake.

On Tuesday Mrs. Sealstead, Mrs. Nightingale and her sister, Miss Hudepeth, Mrs. Schell, returned to their city homes after spending part of the summer at the same popular resort.

Mr. and Mrs. Cowan, with their family, have returned from Gull Lake.

Dr. and Madame Hlale have returned to the city after about a month's absence in Rochester. Many friends will be pleased to hear that Madame Hlale is much improved in health.

Mrs. Lamson, of Winnipeg, arrived in the city last week, and is at the home of her daughter, Mrs. Cecil Goodhard, where return is expected next week.

Miss Haycock is expected to return to the city tonight, from Chicago.

where she played in tennis tournament.

Mrs. Rigby, of Lethbridge, is the guest of Miss Worsley, whose convalescence will be welcome news to her many friends.

Mrs. Dr. J. West, a former Klintonian, and Mrs. Hall of Prince Albert, passed through the city last week.

Mr. and Mrs. Henderson, Mrs. Kay and Miss Henderson, are leaving on Tuesday for California, where they expect to spend several months. It is hoped that during this time, Mrs. Henderson will completely recover her lost health.

Madame Madore and Miss Madore, who have spent some months in the city, returned on Monday to their home in Montreal.

Mr. and Mrs. Hovey left during the week for Watkinson Lake, where they will spend some little time at this delightful summer resort.

Mr. and Mrs. W. W. Eager are also spending a few days at the lake.

Miss Marie Pius is at Gull Lake, the guest of Miss Jessie Belcher.

Miss Crowley was the hostess of a delightful summer dance last night, immensely enjoyed by the younger set, the guest of honor being Miss Mercer.

Mr. Newman will entertain at an

other of his bright parties tonight, the reason of this being tonight being Mrs. Pius's birthday. It is.

The Almas Chabert will be the hostess of the golf tea this afternoon.

Miss Murphy are the hostesses of the tennis tea this afternoon.

The golf enthusiasts are eagerly looking forward to the tournament which is to take place on the Edmonton links on the second, third and fourth of September, crowned by a brilliant ball on the fifth of the same month.

Madame Barry entertained a bright cortege of girls at the tea hour last Saturday, the centre d'attraction being Miss Madore.

ANNEXATION IMMINENT.

Many Indications Point to Annexation of Korea in Near Future.

Seoul, Korea, Aug. 19.—Though nothing official can be learned confirming the report that negotiations for the annexation of Korea by Japan are now proceeding, many signs indicate that annexation is imminent.

Long conversations between the officials are constantly in progress, visits are frequently interchanged, and real activity is noted in the Japanese official circles.

The censorship has been placed on an even more rigid basis than before and Tokyo newspapers, containing reports on the situation in Korea, are confiscated at Pusan on their arrival in this country. The entire country has been placed under a strong military guard, and a number of Japanese war vessels are now patrolling the coasts of Korea.

The situation indicates conditions of extreme tension but the officials maintain a staid-like attitude.

NEW COAST TO COAST RECORD.

Trip Across Continent Made in Ten Days and Eleven Hours.

San Francisco, Aug. 19.—Breaking the automobile time record from coast to coast, L. L. Whitman, who established the former record in 1906, accomplished by R. D. Hammond and a driving crew of three arrive last night from New York, after being ten days, fifteen hours and 12 minutes and one second official time on the road. Whitman took four days, ten hours, 59 minutes and 55 seconds of his former record.

CAPE KENDALL GETS REWARD.

London, Aug. 19.—Scottish Yard has decided that the reward of \$1,125 which was offered for the capture of Dr. Crippen and Miss Lavers, after they had escaped from the hands of the police authorities, belongs to Capt. Kendall.

Capt. Kendall commanded the S. S. Montrose, on which Dr. Crippen and his wife were taken to Canada and received immediate assistance in the subsequent detention and arrest of the fleeing couple.

HIE ENLARGED CECIL HOTEL OPENS MONDAY

The Addition Which is Now Nearing Completion Will Give Grandly Improved Accommodation—Dining Hall One of Largest in the City.

The enlarged and renovated Cecil Hotel will be opened on Monday next after undergoing improvements for some months past. Some time ago the proprietor, C. H. Belanger, stated that he will be in a position to accommodate the Exhibition trade, and the workers have lived up to their contract in this regard.

The large addition which is now being completed will almost double the capacity of this popular hotel. It is 79 feet by 55 feet in size, three stories high and will give thirty additional bedrooms and twenty bathrooms. There is besides a parlor, writing room, ladies' retreats and the large dining hall. All the bedrooms are connected with the city telephone system.

The enlarged building makes the Cecil dining hall one of the largest in the city and more than 200 guests can be comfortably seated. The hotel will in addition to its regular business cater largely to banquets, balls, receptions, etc., for which it now has unexcelled accommodation.

The work of the structure was done by A. E. Simpson, the brick work by J. Warren, the plumbing by Smith and Preece, and the painting by Desjardis and Co.

Proprietor Belanger is to be congratulated on his improved and more up-to-date hotel, since he built

the hotel five years ago he has met a very increasing success. Fifteen years in the hotel business has made him well able to cater to the travelling trade.

LAST TOWNSITE LOTS AT EDSON

We Have Purchased from the Grand Trunk Pacific Railway all the remaining lots of the original townsite of Edson. The number of these lots is not very great but they afford the last chance to get in on the original townsite of the last prairie Division. 1 point of the new Transcontinental Railway. Many of these lots are the choice locations of the original survey, being in the very heart of the business section, while others are the pick of the residential property. Edson is destined to be a big city and these lots will sell quick. A whole ring of sub-divisions outside the original townsite have been placed on the market and hundreds of valuable lots sold. But these lots are all on the original G.T.P. townsite. **BUY NOW—IT'S YOUR LAST CHANCE.**

<h2>EDSON</h2> <p>EDSON is the last prairie Divisional Point on the G.T.P.</p> <p>EDSON is the Calgary of the G.T.P.</p> <p>EDSON is 135 miles beyond Edmonton—just far enough to ensure a large city</p> <p>EDSON is the Mountain Divisional Point for the Yellowhead Pass.</p> <p>EDSON is the prospective junctional point of the G.T.P. and the C.N.R. east Yellowhead Pass.</p> <p>EDSON will be the terminal point of the G.T.P. until 1912.</p> <p>EDSON is the gateway to the unlimited natural resources of the Grande Prairie and Peace River country.</p> <p>EDSON is the gateway to the immense wealth of the Brazeau Coal Field where \$10,000.00 is being spent in development work.</p>	<h2>EDSON</h2> <p>Prices of Lots range from \$100 to \$500</p> <h3>TERMS</h3> <p>$\frac{1}{3}$ CASH</p> <p>Balance 1 and 2 years, interest at 8%</p> <p>or $\frac{1}{4}$ CASH</p> <p>Balance 6, 12 and 18 months interest at 8%</p> <p>or 1-10 CASH</p> <p>Balance in 18 monthly payments at 8%</p> <p>A Small Outlay for Big Returns</p>	<h2>EDSON</h2> <p>EDSON has unlimited Agricultural, Mineral, Timber and Coal Resources.</p> <p>EDSON is the supply point for an immense territory which is full of mining, lumbering and railroad camps.</p> <p>EDSON is the distributing centre and market for the great Agricultural Belt—the Grande Prairie and Peace River Country.</p> <p>EDSON has all the natural advantages of Calgary and many others.</p> <p>EDSON was born lucky receiving from Nature a location unique in its advantages.</p> <p>EDSON has no town of importance to compete with it, North, South or West, within two hundred miles.</p>
--	---	---

Remember Our lots are all on the original townsite where the business section of the town is located. Here is where you find the Stations, Roundhouses and other Railway Buildings and Yards, Elevators, Warehouses, Lumber Yards, Stores, Liverys, Workshops, Banks, Churches, Hotels and the principal residences of the town. You can't go wrong in buying here. In buying real estate keep with the crowd. It is the crowd that creates values.
